SUBSTRATES: LIGHT AND DARK TIMBERS

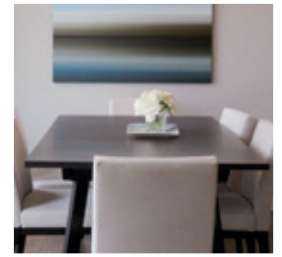

410-0075/02 Ceopal deep matt acrylic multicoat is the new clear 2k PU for warm and matt surfaces, both on light and on dark furniture.

A very versatile product, designed for interior furniture and suitable for most timbers. It produces exceptionally smooth, soft feel surfaces with excellent transparency and warmth, not normally associated with acrylics.

The combination of this breakthrough in transparency for deep matt and soft touch with the fast drying, non-yellowing and high performance properties of acrylic PUs, makes **410-0075/02** a very versatile product.

410-0075/02 can be used on a wide range of interior furniture products in a variety of timbers and colours, producing stable high performing surfaces.

Transparency, warmth and the contrasting shades of the substrate are maintained even at deep matt sheen levels.
